## PROFESSIONAL SUMMARY

Highly skilled Full Stack Software Engineer with 6+ years of experience developing and deploying robust, scalable, and secure web and mobile applications. Expertise in modern JavaScript/TypeScript ecosystems (React, Next.js, Node.js) and Java backend frameworks (Spring, Quarkus), alongside comprehensive AWS cloud services. Proven record of optimizing application performance, implementing sophisticated cloud architectures, and delivering exceptional user experiences in agile, cross-functional teams.

## TECHNICAL SKILLS

|                       |                                                                                                                                                     |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Frontend</b>       | JavaScript, TypeScript, React.js, Next.js, Redux, React Native, HTML, CSS, TailwindCSS, Material-UI, Chakra-UI                                      |
| <b>Backend</b>        | Node.js, Express.js, Nest.js, Java, Spring Boot, Quarkus, C#, ASP.NET WebAPI, Python                                                                |
| <b>Cloud / DevOps</b> | AWS (Lambda, EC2, ECS, ECR, S3, RDS, DynamoDB, CloudFront, CloudWatch, Route 53, SES, SNS, IAM, CloudFormation), Azure, GCP, CI/CD (GitHub Actions) |
| <b>Databases</b>      | PostgreSQL, MongoDB, MSSQL, GraphQL, DynamoDB                                                                                                       |
| <b>Testing</b>        | Jest, Mocha, Performance Optimization, Code Splitting, Lazy Loading, Memoization                                                                    |
| <b>Security</b>       | JWT, OAuth, Industry-standard security protocols                                                                                                    |

## PROFESSIONAL EXPERIENCE

### Senior Full Stack Software Engineer

Nov 2025 – Present

#### VOIS — Vodafone Intelligent Solutions

Remote

- Building enterprise-scale web applications using React, Next.js, and Node.js within cross-functional agile teams.
- Developing Java microservices with Spring and Quarkus frameworks for high-throughput backend systems.
- Contributing across the full stack — TypeScript/React frontends through to Java/Node.js backend services.

TypeScript React.js Next.js Node.js Java Spring Quarkus

### Senior Frontend Engineer

Nov 2024 – Nov 2025

#### InVitro Capital

Irvine, CA, USA — Remote

- Architected complex, performant React/TypeScript applications using advanced patterns and sophisticated state management.
- Designed scalable AWS microservices using Lambda, CloudFront, S3, RDS, and ECS, reducing infrastructure overhead.
- Enhanced performance monitoring via CloudWatch and enforced granular IAM access control and Route 53 domain routing.
- Conducted thorough code reviews and collaborated closely with cross-functional teams to deliver user-centric interfaces.

React.js Next.js TypeScript Node.js AWS Lambda CloudFront RDS ECS

## Senior Full Stack Engineer

May 2023 – Jun 2024

### Swenson He LLC

Los Angeles, CA, USA — Remote

- Implemented AWS Lambda serverless architecture, reducing infrastructure costs by 40% and improving scalability.
- Designed and deployed microservices on AWS Elastic Beanstalk; configured CloudWatch for real-time performance tracking.
- Implemented SNS and SES for robust notification pipelines; built secure JWT/OAuth authentication systems.
- Designed CI/CD pipelines with GitHub Actions integrated with Elastic Beanstalk for zero-downtime deployments.

Node.js Nest.js React.js AWS Lambda Elastic Beanstalk PostgreSQL

## Full Stack Developer

Nov 2021 – May 2023

### DotOffice VB

Amsterdam, Netherlands — Remote

- Built a cloud-based document management platform on Azure VMs with Azure Functions and Blob Storage.
- Configured Azure Active Directory for robust authentication and Azure DevOps for CI/CD and monitoring.
- Designed MSSQL schemas and applied React performance patterns including code splitting and memoization.

TypeScript React.js Node.js C# ASP.NET Azure MSSQL

## Software Engineer

Jun 2019 – Nov 2021

### HyperList LLC

Riyadh, KSA — Remote

- Built scalable e-learning platforms on Google Cloud Platform with microservices and serverless architecture.
- Developed a cross-platform iOS app with React Native; reduced load times by 35% through targeted optimisation.

React.js React Native Node.js GCP

## Frontend Developer

Apr 2018 – Jun 2019

### Arabic Digital Research Institute (ADRI)

Manama, Bahrain — Remote

- Contributed to an AI-driven research platform using React.js and Ember.js.
- Conducted code reviews and developed unit tests for UI components.

React.js Ember.js JavaScript

## EDUCATION

---

### **Bachelor of Engineering**

Assiut University — Power / Machines Technology  
Thesis: "Technological Advancements within the Current  
Mechatronics Industry"

### **Diploma in Mechanical Engineering**

Assiut University — Power Management & Renewable  
Energy

## LANGUAGES

---

**English** — Professional Fluency (C1 Advanced)

**Arabic** — Native

## CERTIFICATIONS

---

### **Real-Time Web with Node.js**

Node.js University, 2019

### **Advanced JavaScript Course**

Frontend Masters, 2022

## OPEN SOURCE

---

### **strapi-firebase-auth**

Firebase Authentication plugin for Strapi v4
